(File No 3-14 - Order No G 12181-2 dated 8th May 1915). This order as well as the Earlier one of 1907 appear to be of the nature of permanent standing orders.

It will be observed that the order of 8th May '15 refers only to Bulletins of the Association — It would appear that it does not apply to the Proceedings of the Association & same forms which are what are now required by the Association to be printed & have to under the order of April 1907 to be printed free. —

The present reference has come up Incidentally under Para III of the G.O. of June 1915. —

There is no doubt the work in the Press is very heavy - If approved the Supdt may be asked to state whether he can take up the work without detriment to govt work. The Proceedings of the Association

21 *As a special case, the work of the Engineers' Association may be printed at the Government Press free of cost this year, if the First Member agrees.*

22 *But Government cannot continue this concession in addition to the money grant now given to the Association. The Press should be treated as a commercial concern and the Association should be asked to meet the printing charges itself; and, if necessary, the present grant may be slightly enhanced. In this view, proposals for the next year may be called for in good time.*
